

B2B

Purchasing & Corporate Card Payment Data. Simple.

The B2B Payments App ensures that Purchasing and Corporate card payment data is passed correctly in order to qualify at an optimal Level 2 and Level 3 interchange rates without any additional entry fields.

DID YOU KNOW?

Did you know that Purchasing and Corporate cards can accept additional transaction data, which can lower the interchange qualification?

LEVEL II & III

When the B2B Payments App is enabled, we check that the additional Level 2 and Level 3 transaction data needed for those payments is present and accurate in order to receive the best possible rate.

THE BEST POSSIBLE RATE

We are always striving to get the best possible rate for our merchants. As of today Level 3 transaction data is only available on the TSYS platform.
